LETTER FROM CEO

Dear Colleagues,

Please let me introduce our Code of Conduct. It outlines the ethical and behavioural framework to guide right course of action in challenging scenarios we face in everyday business situations. We have prepared the Code of Conduct to illustrate what we believe in and what we expect from our suppliers and business partners.

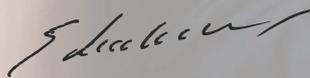

The Code of Conduct covers human rights, workers' rights, compliance with legislation, the environment consideration and anti-corruption. Working in demanding international business requires commitment to comply with complex laws and regulations which can make discerning right from wrong more difficult now than in the past.

Our Code of Conduct align closely with UN Global Compact's ten principles and universally recognized standards such as the United Nations Universal Declaration of Human Rights. Those guidelines set the right course of action, helping to understand the legal and ethical risk that may arise. They are designed to assist us to meet our obligations, act with integrity in the market place and be respectful to one another.

*The right actions protect reputation of **Girteka Logistics** and send a clear message to our business partners. That is why commitment to integrity, acting honestly and ethically, and complying with the letter and spirit of the law are critical to our continued success in business. These are non-negotiable standards that apply to all of us, regardless of where we work within **Girteka Logistics**.*

*At **Girteka Logistics**, we seek for cooperation with our suppliers and business partners, in pursuit of our aims, keeping lines of communication open in case of any raising questions and doubts.
